QUESTION THREE

- i. Write a CSS rule that changes the color of all elements containing attribute *id= "Green-Move"* to green and shift them down 25 pixels and right 15 pixels. **[5 Marks]**
- ii. Write a layout template that contains two columns. Use divs for each layout component, and use float to line up the columns side by side. Give each component a border and/ or a background color so you can see where your divs are. **[5 Marks]**
- iii. Several divs have a class of even. Write a style rule (as it would appear in an external stylesheet) that gives each of these black text on a red background using 14px sans-serif font, and the borders should be 1 pixel solid black lines all around. **[5 Marks]**
